DETAILED ACTION

1. Claims 1-41 were subject to restriction or election requirement.

Election/Restrictions

2. Restriction to one of the following inventions is required under 35 U.S.C. 121:

Group I. Claims 1 and 68 (and claims depending on), drawn to an apparatus having reading type changing part changing a type of reading, classified in Class 358, subclass 474;

Group II. Claims 9 and 69 (and claims depending on), drawn to an apparatus having a printing type changing a type of printing material, classified in Class 358 subclass 1.1.

Group III. Claims 17 and 70 (and claims depending on), drawn to an apparatus having paper inserting part for printing, classified in Class 358, subclass 1.18; and

Group IV. Claims 19 and 71, drawn to an apparatus having an original separating part for processing, classified in Class 358 subclass 1.13.

3. The inventions are distinct, each from the other because of the following reasons:

Inventions I-II are related as subcombinations disclosed as usable together in a single combination, the single combination being a printing system. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, each of the respective inventions have been separate utility as in a system not having the others. See M.P.E.P. § 806.05(d).

4. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, each Group requiring a separate field of search, and their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

5. A telephone call was made to the Attorney's office on 10/14/08 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the response to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed.

6. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 C.F.R. § 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a diligently-filed petition under 37 C.F.R. § 1.48(b) and by the fee required under 37 C.F.R. § 1.17(h).

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Gabriel I. Garcia whose telephone number is (571) 272-7434. The Examiner can normally be reached Monday-Thursday from 7:30 AM-6:00 PM. The fax phone number for this group is (571) 273-8300.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Edward L. Coles can be reached on (571) 272-7402. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
